FORWARD LOOKING STATEMENT

The Company uses a number of financial measures to assess its performance. Some of these measures are not calculated in accordance with Generally Accepted Accounting Principles (GAAP), which are based on International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB), are not defined by GAAP and do not have standardized meanings that would ensure consistency and comparability among companies using these measures. The Company believes that certain non-GAAP measures are useful in assessing ongoing business performance and provide readers with a better understanding of how management assesses performance. Readers are cautioned that these non-GAAP financial measures should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. Non-GAAP measures presented include earnings include earnings before interest and taxes (EBIT) and earnings before interest, taxes, depreciation and amortization (EBITDA).

Confidentiality and Use

This presentation and all the information contained herein are confidential, proprietary and for the use solely by the prospective investors and their professional advisors and is not for public distribution. By your acceptance of this presentation you and any person reviewing this presentation agrees not to do any of the following in respect of this presentation or any information contained herein without the prior permission in writing from Vortex Metals Inc ("Vortex Metals Inc" or the "Company"): (1) use; (2) disclose or divulge; (3) copy; (4) retain; (5) reproduce; (6) publish; (7) transmit; (8) make available; or (9) condone, permit or authorize the use, disclosure, copying, retention, reproduction, transmission or publication thereof, including to the public or media. This presentation is solely for the purpose of evaluating a potential investment in the securities of the Company (the "Offered Securities"). In consideration for the time and effort expended by Vortex Metals Inc to prepare this presentation, these obligations shall survive indefinitely, whether or not a prospective investor acquires any Offered Securities.

No securities regulatory authority has expressed an opinion about these securities and it is an offence to claim otherwise.

This Presentation provides general background information about the activities of Vortex Metals Inc. Information disclosed in this Presentation is current as of October 14, 2021, except as otherwise provided herein and Vortex Metals Inc does not undertake or agree to update this Presentation after the date hereof. All information is derived solely from management of Vortex Metals Inc and otherwise publicly available third-party information that has not been independently verified by the Company. To the extent such information is obtained from third party sources, there is a risk that the assumptions made and conclusions drawn by the Company based on such representations are not accurate. The information contained in this presentation does not purport to be all-inclusive or to contain all information that a prospective investor may require. Prospective investors are encouraged to conduct their own analysis and reviews of the Company and of the information contained in this presentation. Without limitation, prospective investors should consider the advice of their financial, legal, accounting, tax and other advisors and such other factors they consider appropriate in investigating and analyzing the Company, as an investment in the Company is subject to various risks.

No person has been authorized to give any information or make any representations other than those contained in this Presentation and, if given and/or made, such information or representations must not be relied upon as having been so authorized. This information is solely for use by accredited investors in determining whether to seek additional information about the Company. This does not constitute an offer to buy any securities of the Company. Offers to purchase securities of the Company are made through offering documents of the Company and are subject to rejection or acceptance at the sole discretion of the Company. This Presentation is not to be construed as a prospectus or advertisement or a public offering of any securities of the Company.

In the United States of America (the "U.S."), any offering of securities will be available to only "Accredited Investors" (as defined in Regulation D under the U.S. Securities Act).

The securities of the Company have not been and will not be registered under the United States Securities Act of 1933, as amended, or any U.S. state securities laws and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons, unless an exemption from such registration is available. No securities regulatory authority in Canada, the United States of America or any other jurisdiction has reviewed or in any way passed upon this presentation or the merits of the Offered Securities and any representation to the contrary is an offence.

Forward-Looking-Information

This Presentation contains "forward-looking information" within the meaning of applicable Canadian securities laws. This information and these statements, referred to herein as "forward looking statements", are made as of the date of this Presentation or as of the date of the effective date of information described in this Presentation, as applicable.

Forward-looking statements relate to future events or future performance and reflect current estimates, predictions, expectations or beliefs regarding future events and include, without limitation, statements with respect to: (a) the prospectus and growth trajectory of the healthcare technology industry; (b) general business and economic conditions; (c) the Company's ability to successfully maintain its current competitive market position; (d) the Company's ability to maintain adequate systems and software to meet customer demand; (e) the Company's ability to expand sales and marketing; (f) developing new products and enhancing existing services; (g) the availability of financing on reasonable terms; (h) competition in the market and products offered by the Company's competitors; (i) financial results, future financial position and expected growth of revenue and net income of the Company; (j) general

Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects", or "does not expect", "is expected", "budget", "scheduled", "estimates", "projects", "targets", "forecasts", "intends", "anticipates", or "does not anticipate", or "believes" or variations (including negative and grammatical variations) of such words and phrases or state that certain actions, events or results "likely", "may", "could", "would", "might", or "will be taken", "occur", or "be achieved". Forward-looking information is based on the opinions and estimates of management at the date the information is made, and is based on a number of assumptions and is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward looking information, including without limitation:

- (i) the Company is subject to changes in Canadian laws, regulations and guidelines which could adversely affect the Company's future business and financial performance; (ii) the Company may not be able to effectively manage its growth and operations, which could materially and adversely affect its business; (iii) the Company may be unable to obtain additional financing on acceptable terms or not at all;
- (iv) the Company may become subject to litigation, including possible product liability claims, which may have a material adverse effect on the Company's reputation, business, results from operations and financial condition; (v) the Company faces competition from other companies where it will conduct business and those companies may have a higher capitalization, more experienced management or may be more mature as a business; (vi) the Company is reliant on management and retaining key personnel; (vii) an investment in the securities in the Company is speculative and could result in the loss of an investor's entire investment; (ix) value of the Company's securities is determined by management; (x) no public market for the securities of the Company and there will be restrictions on the transfer of any securities issued by the Company; (xi) business risks of the Company in executing its strategy to operate in the e-gaming space; (xii) intellectual property risks in obtaining and maintaining patent and IP protections for the Company's licensed technology, trademarks, other proprietary assets; (xiii) general market and economic conditions; and (xiv) volatility and systemic risks from the COVID-19 pandemic and resulting governmental regulatory responses.

Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information. Vortex Metals Inc and its directors, officers and employees disclaim any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise, except as required by applicable law. Accordingly, current and potential investors should not place undue reliance on forward-looking statements due to the inherent uncertainty therein. All forward-looking information is expressly qualified in its entirety by this cautionary statement.

An investor should read this Presentation with the understanding that the Company's actual future results may be materially different from what is expected.

Qualified Person

Robert J. Johansing, BSc Geology, MSc Economic Geology, QP MMSA, is an independent qualified person, as defined by NI 43-101. Mr. Johansing has reviewed the technical content of this Presentation and consents to the information provided in the form and context in which it appears.

Future Oriented Financial Information

To the extent any forward-looking information in this presentation constitutes "future-oriented financial information" or "financial outlooks" within the meaning of applicable Canadian securities laws, such information is being provided to demonstrate management's anticipation of market penetration and the reader is cautioned that this information may not be appropriate for any other purpose and the reader should not place undue reliance on such future-oriented financial information and financial outlooks. Future-oriented financial information and financial outlooks, as with forward-looking information generally, are, without limitation, based on the assumptions and subject to the risks set out above. The actual financial position and results of operations may differ materially from management's current expectations and, as a result, the Company's revenue and profitability may differ materially from the revenue and profitability profiles provided in this presentation. Such information is presented for illustrative purposes only and may not be an indication of the Company's actual financial position or results of operations

NO DE-CARBONIZATION WITHOUT COPPER

The energy transition, EV adoption, and electrification are forecasted to create a structural copper deficit from 2025 onwards

Copper demand from solar, wind, EVs, batteries could reach 5.4Mt by 2030, 20% of current 28Mt annual demand

Sticky supply threatens to deplete copper stocks by mid-decade

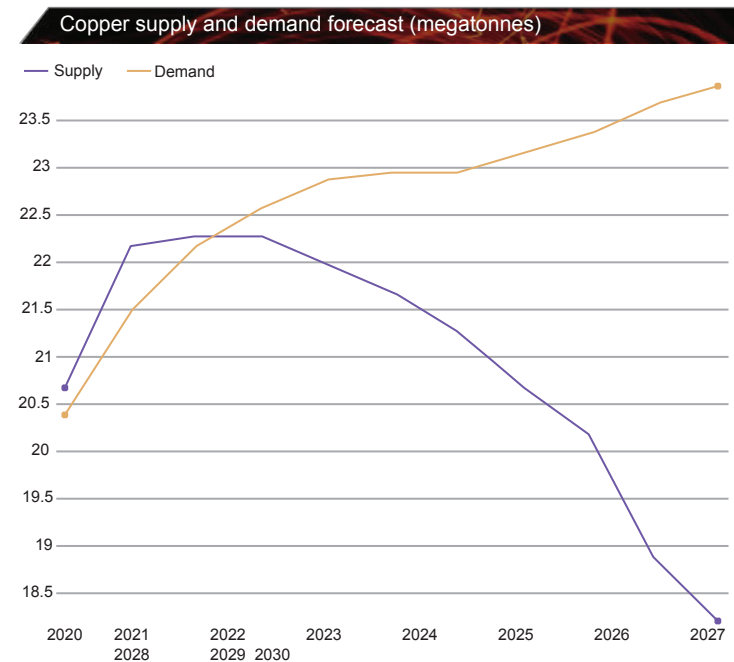

Lack off new Copper discoveries, a choke point for the energy transition: Out of the 228 copper deposits discovered between 1990-2021, only 5% in the last decade

S&P Global

“This combination of surging demand and sticky supply has reinforced current deficit conditions and foreshadows large open-ended deficits from mid-decade. We now estimate a long-term supply gap of 8.2Mt by 2030, twice the size of the gap that triggered the bull market in copper in the early 2000s.”

Goldman Sachs

Copper Demand Imbalance

THREE 5 STAR COPPER PROJECTS

Diverse Copper Exploration Portfolio: The inclusion of an emerging VMS belt project in Mexico and an advanced copper exploration project in Chile

Advanced Copper Project in Chile

Exploration permits for the property have already been obtained for drilling and exploration

In close proximity to the El Espino Mine - valued at approximately US\$380 million, expected to produce 26,000 mt/Cu and 13,000 oz/ Au¹

Access to paved roads, a power grid, and a water supply (224 km from capital city of Santiago de Chile)

VMS Copper Project in Mexico

Emerging VMS belt, identified by the late D. Jones, a renowned geologist behind models leading to discoveries in the Guerrero Gold Belt in Mexico (e.g., Los Filos, 7.43M oz of Au, & 52.5M oz Ag)

Proximity to major infrastructure, including highway and deep sea port

Five high potential target areas have been identified on the basis of geology, geochemistry, and geophysics

1. Purocobre Copper Chile

Note: LOI signed, definitive agreement and all applicable regulatory approvals are pending to be completed, for the closing of the Illapele project

PROFICIENT MANAGEMENT & BOARD

Management Team

VIKAS RANJAN

CO-FOUNDER, CEO & DIRECTOR

Management professional with 25+ years' experience in finance, capital markets, entrepreneurship, and investing.

Co-founder of Gravitax Group, launched public and private enterprises in capital markets and growth investing.

MICHAEL WILLIAMS

CO-FOUNDER, CHAIRMAN & DIRECTOR

Senior executive with 24+ years in mining, skilled in structuring and marketing Toronto Stock Exchange-listed companies.

Executive Chairman of companies, including Underworld Resources, acquired for \$138M by Kinross Gold Corp.

Established international financing network, raised substantial capital for global exploration and development projects.

ROGER HE

CFO

Finance and accounting professional with 10+ years' experience in assurance, accounting, corporate finance, and capital markets.

Directors & Advisors

Dr. JIM FRANKLIN

LEAD TECHNICAL ADVISOR

Inductee to Canadian Mining Hall of Fame.

Distinguished geoscientist, pivotal in advancing Canada's mineral industry.

Developed exploration models for volcanogenic massive sulphide (VMS) deposits and researched "black smoker" systems.

Dr. JOHN LARSON

DIRECTOR

Executive with 42 years of international experience in exploration, mining, and resource development.

Held leadership roles in major mining companies, including 16 years with BHP Billiton.

Built diverse portfolio of base and precious metals projects in multiple countries, serving on boards of junior explorers.

ILLAPEL COPPER PROJECT, CHILE

Active workings at Farallón Sánchez, looking NW. District characterized by multiple veins striking generally N-S, lying west of the Manquegua fault, and mined for gold and copper.

Manto type Stratabound deposit

Drill ready: Eight high potential target areas have been identified on the basis of geology, geochemistry, and geophysics

In close proximity to the El Espino mine, valued at US\$380 million, with annual production projected to be 26,000 mt of copper and 13,000 oz of gold

Three mineral leases totaling 8,000 hectares

ILLAPEL COPPER PROJECT, CHILE

Proximity to El Espino: Receiving an estimated value of US \$380 million with annual expected production of 26,000 mt of fine copper and 13,000 oz of gold.¹

Advanced brownfield Copper project in Choapa Province of Chile

- ▼ Proximity to major infrastructure, exploration sites are easily accessed by road 223 km North of the capital city of Santiago de Chile
- ▼ Access to paved roads, a power grid, and a water supply

Permitted for exploration, rock sample grades show 1.39% Cu

- ▼ Regulatory Approvals in place for immediate project advancement
- ▼ Attractive copper, silver and gold grades enhancing economic viability

Vortex Metals will have a working interest on the remainder of the project with potential to expand the resource significantly

- ▼ Focus on exploration and discovery of a sizable and economical deposit

ROFR on Rio 27 Mine, with a current probable, indicated, and inferred resource of 6.2M tons source internal estimate (non 43-101 compliant)²

- ▼ Promising outlook for increased reserves and production capacity

2. SCM Ventana Minerals Inc

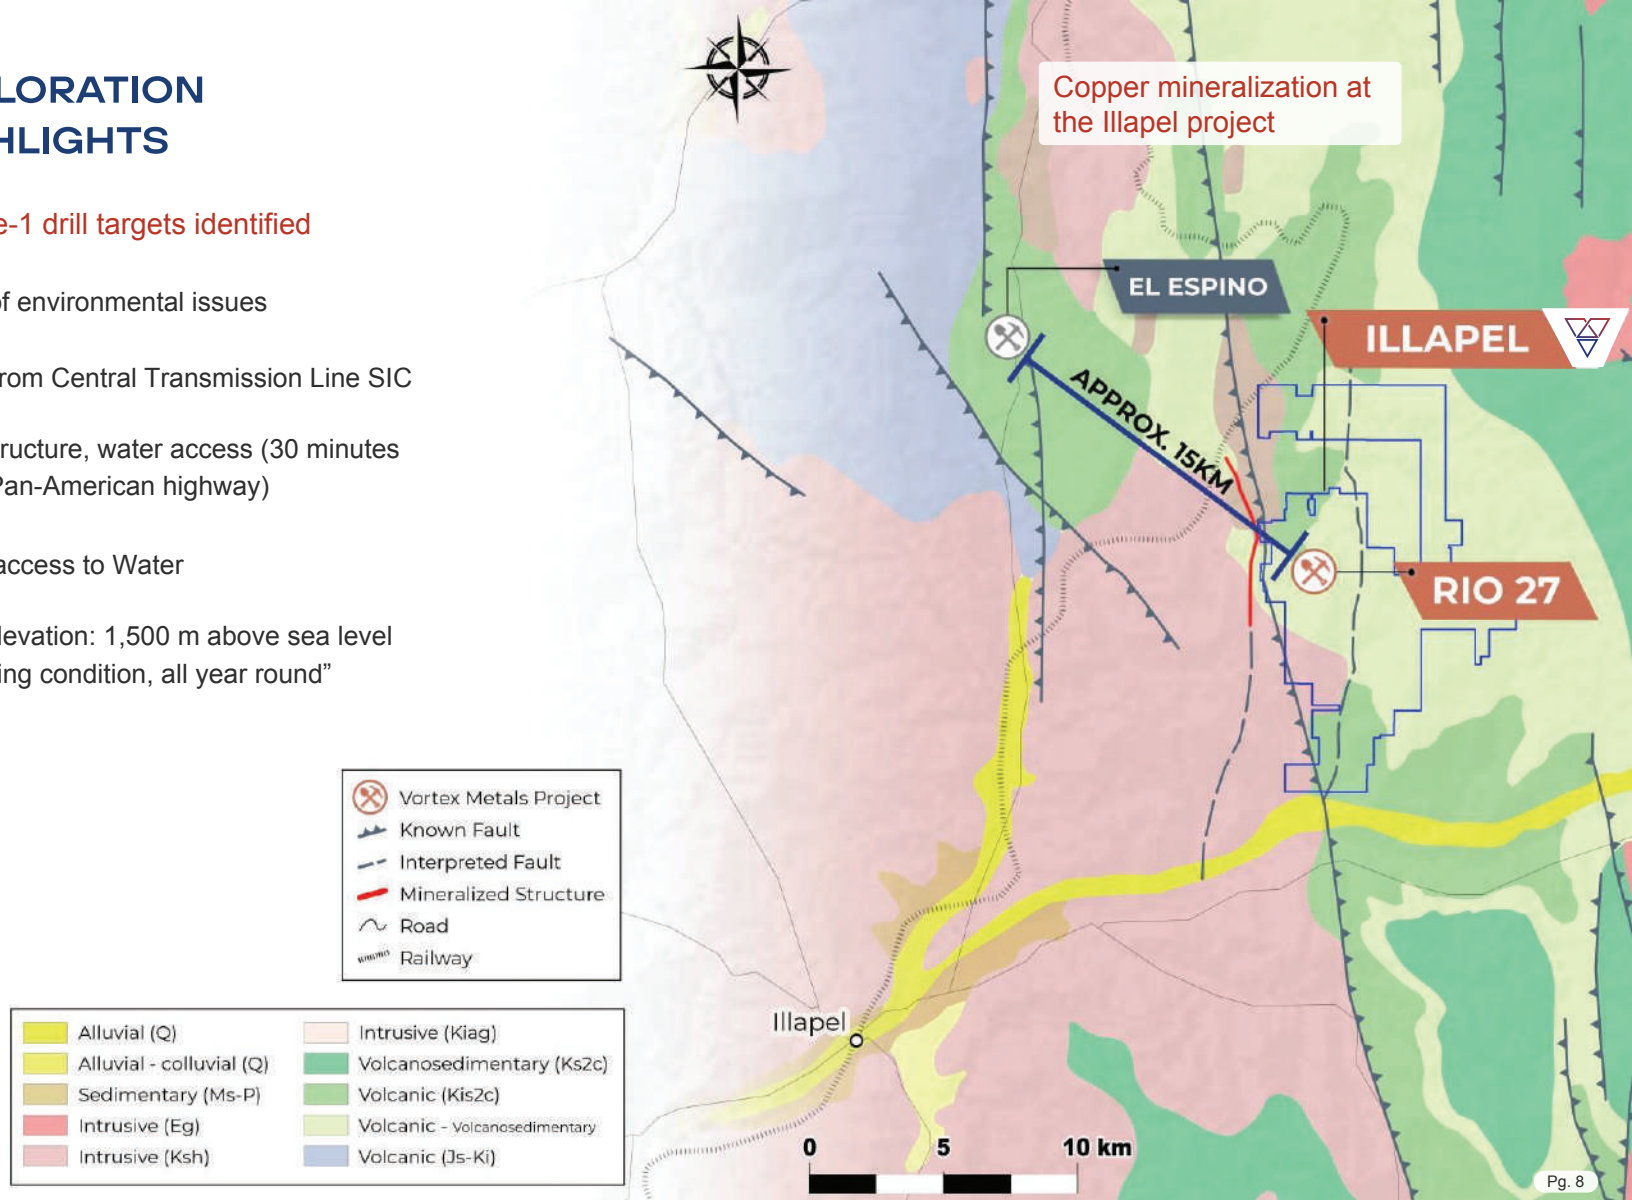

EXPLORATION HIGHLIGHTS

Phase-1 drill targets identified

- Free of environmental issues
- 5 km from Central Transmission Line SIC
- Infrastructure, water access (30 minutes from Pan-American highway)
- Easy access to Water
- Low elevation: 1,500 m above sea level
"Working condition, all year round"

Copper mineralization at the Illapel project

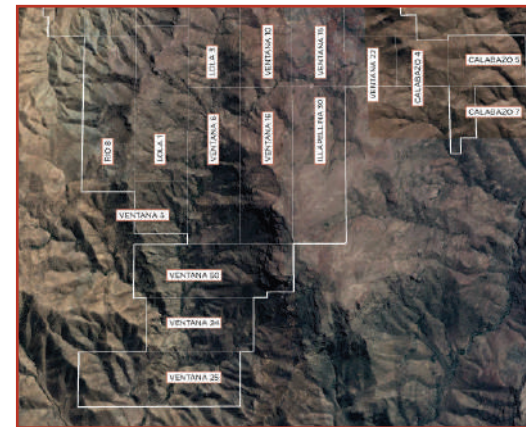

ILLAPEL VISUALIZATION

Top Claims

Bottom Claims

PHASE-1 COPPER PROJECT

N10°E-Striking vein at Ventana IV in northern portion of the concession package. Vein contains chalcocite, CuCO_3 and CuOx . Where mineralization intersects impermeable volcanic rocks, it tends to form tight veins with little dissemination.

MEXICO VMS PROJECTS

Volcanogenic massive sulphide ore deposit (VMS)

Five high potential target areas have been identified on the basis of geology, geochemistry, and geophysics

Analogous to large VMS deposits in Latin America, including Tambo Grande, San Nicholas, and Campo Morado.

Three mineral leases totaling 12,041 hectares

Targets Drill Ready (awaiting permitting)

VMS EXPLORATION PROJECTS

PACIFIC OCEAN

USA

FRANCISCO I MADERO

42.06 MT @ 19.17g/t Ag
0.07% Cu and 2.06 Zn

SAN NICHOLAS

102.56 MT @ 0.44g/t Au,
25.72g/t Ag, 1.24% Cu and 1.60% Zn

TIPAZA

10.22 MT @ 1.8g/t Au
217g/t Ag, 0.3% Cu and 5.6% Zn

REY DE LA PLATA

17.75 MT @ 1.2g/t Au
128.8g/t Ag, 0.8% Cu and 3.5% Zn

CAMPO MORADO

31.55 MT @ 1.4g/t Au
105g/t Ag, 0.9% Cu and 3.7% Zn

ZAACHILA

RIQUEZA MARINA

SANTA MARTA

MEXICO

Vortex Metals controls two of three high potential VMS exploration plays in the region.

Renowned VMS expert, Jim Franklin has proposed that the geological setting is similar to the world class Noranda VMS Camp.

Multiple high grade drill targets identified at each project supported by geology, geochemistry and geophysics.

- VMS Deposits
- Vortex Metals Early Exploration Projects
- Sierra Madre VMS Belt
- Oaxaca VMS Belt

PROJECT LOCATION MAP

- ▽ Multiple High-Grade Drill Targets
- ▽ Drill Permitting Underway
- ▽ Access to infrastructure
- ▽ Local Support

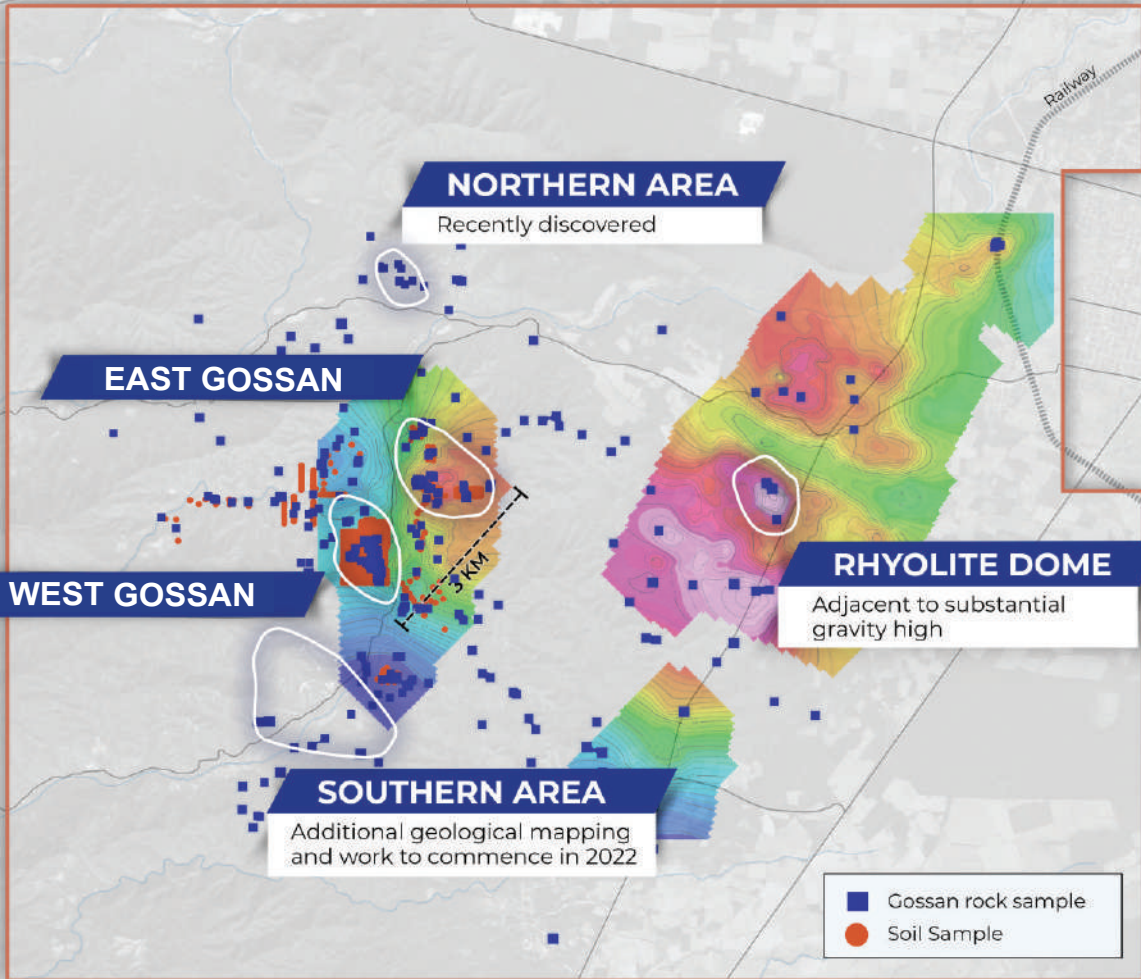

RIQUEZA MARINA

ZAACHILA

- Railway
- Transmission line
- Wind Farm
- Deep Water Port

RIQUEZA MARINA TARGET AREAS

Extensive outcrops and subcrops of high-grade mineralized (Cu-Au-Pb-Zn) gossan occur along a 3km strike length at priority West and East Gossan targets

Multiple areas of high-grade (>0.5% Cu) surface mineralization

Large Gravity Anomalies may represent buried massive sulfide horizons

Substantial gravity high adjacent to a mineralized 'Rhyolite Dome'

COPPER MINERALIZATION

West and East Gossan Targets

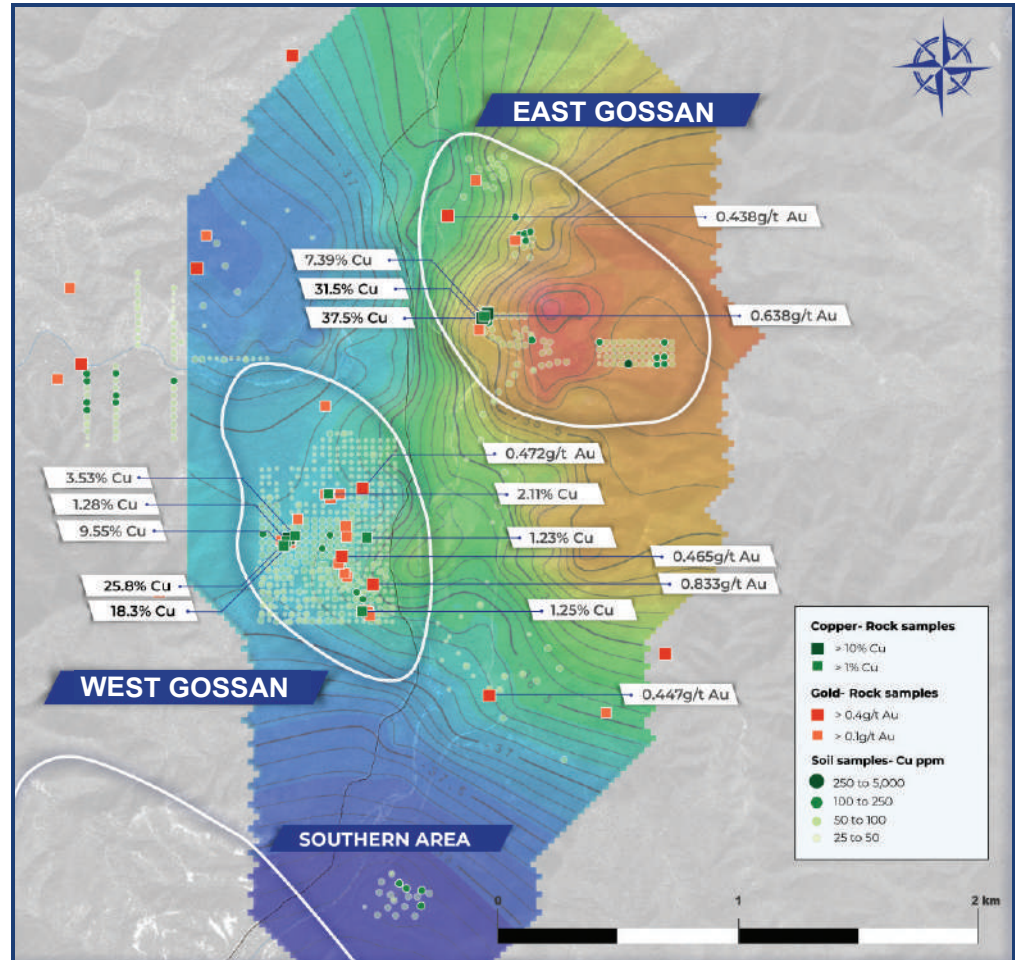

Project Samples to date:

- 863** Rock chip samples
- 740** Soil samples (XRF analyses)
- 46** Stream sediment

All true gossan samples (n=229) are mineralized

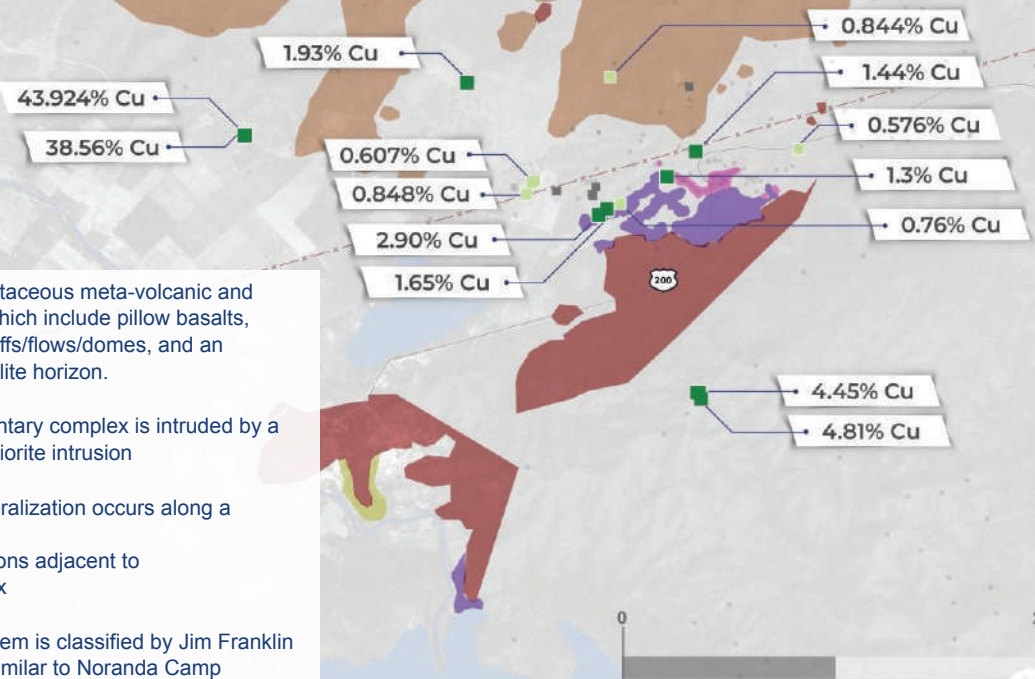

COPPER	GOLD
10 (4.3%) > 10% Cu	1 (0.4%) > 2.0 g/t Au
26 (11.4%) > 1.0% Cu	13 (5.7%) > 0.2 g/t Au
59 (25.8%) > 0.5% Cu	17 (7.4%) > 0.1 g/t Au
97 (42.4%) > 0.2% Cu	

ZAACHILA CLAIM

Target Area

Rocks consist of Cretaceous meta-volcanic and sedimentary rocks which include pillow basalts, andesites, rhyolite tuffs/flows/domes, and an extensive silica exhalite horizon.

The volcano-sedimentary complex is intruded by a large trondhjemite- diorite intrusion

Surface copper mineralization occurs along a >5 km trend in stratigraphic horizons adjacent to trondhjemite complex

The mineralized system is classified by Jim Franklin as 'bimodal mafic', similar to Noranda Camp (Canada) deposits, and large VMS deposits in Latin America, including Tambo Grande, San Nicholas, and Campo Morado.

Copper- Rock samples

- > 1% Cu
- 0.5% to 1% Cu
- 0.2 to 0.5 Cu

Volcano-sedimentary complex

- Trondhjemite- diorite intrusion
- Redbeds
- Breccia debris/volcanic
- Conglomerates
- Exhalite: Silica FeOx

Pacific Ocean

FULFILLING THE LEGACY OF THE "MINE FINDER"

The story of Vortex Metals started with the vision of the late **David Jones**, a renowned geologist credited as spearheading the discovery of **7.43 million ounces of gold and 52.54 million ounces of silver** in what eventually became known as **Los Filos**, one of the **world's largest gold deposits** (now owned by Equinox Gold)

Jones was a recognized skarn expert and created the geological model responsible for multiple discoveries in what is now known as the 20-million-ounce Guerrero Gold Belt in Mexico, earning him the **moniker "mine finder"**.

Jones believed that both the Riqueza Marina- Zaachila (RQMZ) copper-gold projects, in Oaxaca, currently owned by **Vortex Metals** (TSXV:VMS), would be his next significant discovery and had personally curated five high-potential targets in his work toward discovering the next large mineralized system.

DAVID JONES THE "MINEFINDER"

Science:

Best-in-class team of
geologist & technical expert

Execution:

Management team with over
\$100M exit track record

Opportunity:

3-world-class Copper
exploration projects
